The products are classified basically in the **BRANDS** section, based on their branding. Additionally, they are classified in the **CATEGORIES** section, according to the commercial category they belong to. In section **SPECIAL OFFERS** you can find all the products that they have a **net price**, and in the **STOCK** section the ones that cannot be found in our catalogues.

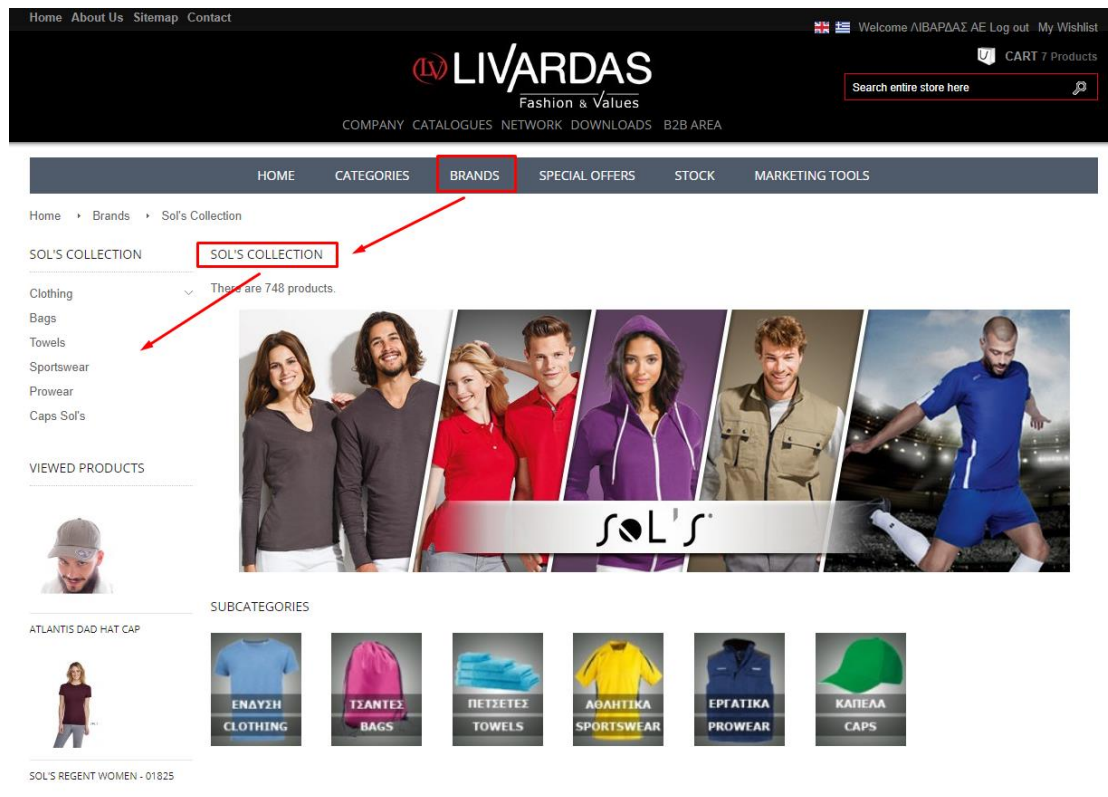

Image 3: Surfing in menu / categories

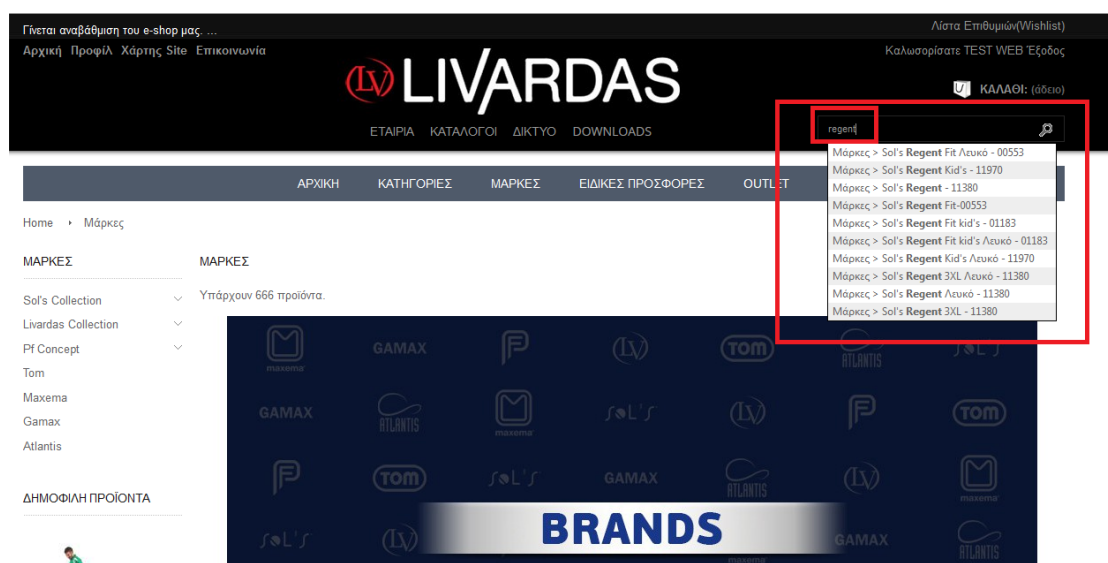

Image 4: Product overview based on product description (suggested for submitting an order)

The fastest and recommended way of ordering a product is through the **SEARCH** field, typing the code and/or the product description, pressing **ENTER** and then selecting the product you want from the results. Do not forget that the products are based on their differences in price, for example for the same product there is a unique code for white color, another one for the rest colors and another for big sizes in white and another for big sizes in the rest colors, if available. For example, if you're searching for **REGENT**, you can write it in the SEARCH field, then press Enter without a specific option and it will show a list with all the Regent product codes – 15 results, as shown below.

The screenshot shows the LIVARDAS e-shop interface. At the top, the search bar contains the word "REGENT". Below the search bar, a yellow banner indicates "15 results have been found". The results are displayed in a grid of 8 items, each with a product image, name, code, availability status, price, and an "Add to Wishlist" button.

Product Name	Code	Availability	Price
SOL'S REGENT KIDS WHITE	11970	Available	1,33 €
SOL'S REGENT FIT WHITE	00553	Available	1,98 €
SOL'S REGENT KIDS	11970	Available	1,69 €
SOL'S REGENT FIT	00553	Available	2,49 €
SOL'S REGENT FIT KIDS	01183	Available	2,09 €
SOL'S REGENT FIT KIDS WHITE	01183	Available	1,59 €
SOL'S REGENT WOMEN	01825	Available	1,85 €
SOL'S REGENT WOMEN WHITE	01825	Available	1,50 €

Image 5: Results based on the products search (eg Regent)

Keep in mind that all color codes are only referenced by the product's description without the coloring, eg "Sol's Regent kid's", in contrast to its white counterpart, which is referred to as "Sol's Regent kid's white". So, by choosing the code that you are interested in, you proceed to the basics of the genre.

jent - 11380

Image 6: Product info

Image 6 summarizes all available information about the product.

At the end of the page, you can find the table (image 6) where you can fill in the quantity you wish to order. Indicatively, we report that the table gives information about:

- Available color-size combinations
- Wholesale prices
- Availability of the above combinations in our warehouse (updated every 10 min.)
- Colored cells regarding availability
 - **available item** → cell in white color
 - **not available item** → cell in red color
- Colored cells regarding product features
 - **product in offer** → cell in green color
 - **product on demand** → cell in yellow color
- Expected quantity with date of receipt of orders given from our suppliers
- Suppliers' availability (only for SOL'S & ATLANTIS)

Image 8: Shopping cart summary

In case an item is not available at that moment, you can see the comment "Contains quantity that's not available".

And you may choose one of the following commands that will help us proceed with your order.

*** Shipping Management (For available quantities there is always a small margin of error. In such cases, customer support will inform you.)**

- Send all available products immediately and not available ones in a different shipment
- Send all products together when they are available
- Send only available products and delete all products that are missing
- The products appear to be ready for shipping. In case there is an error you will be notified by our support department

Your shopping cart contains: 7 products

Customer Discount - 3%
Web Discount - 2%

Total products (tax excl.)	16,21 €
Freight cost	2,00 €
Discounts	0,91 €
Total (tax excl.)	17,30 €
Total tax	4,15 €
Total	21,45 €

* Shipping costs are the minimum for 1 package. In cases of multiple packages the difference will be calculated and added to the invoice.

Image 9: Calculation of discounts and shipping cost

Before checking out you must check your order (items, colors, sizes, prices). Keep in mind that the system can include a shipping cost just for one package in each order. If your order happens to be more than one packages, then you will find the correct shipping costs in the Invoice.

Afterwards you may see the e-shop discount -2%, added to your customer discount, if you do have one.

At this point and during your first log in, the system will ask you to confirm your data, giving your telephone number. You may save your data by choosing SAVE. In case your data are wrong, you may contact us in info@livardas.gr.

Important Information

- 1) Products with net prices are not supposed to take any discount (customer discount & web discount (2%)). But due to a site error at moment, the discount is made in the Total amount. So, you should be aware that if your order includes such items, the Total value is charged on the invoice with that deduction which has been subtracted. If you have chosen bank wire method of payment, then you must contact us in order to inform you about the correct value of your order.
- 2) The same contact is also necessary for the shipping costs, that cannot be calculated by our e-shop, but they are calculated in the final Invoice, based on the number of packages we are sending you.
